

Good **Chemistry** for Tomorrow

Creating better relationships among people, society, and our planet.

“Chemistry” is a field of science but also refers to compatibility, relationships, and connections among different objects, different people, and between people and objects as well.

Good Chemistry for Tomorrow therefore expresses our commitment to creating better relationships among people, society, and our planet.

Based on **Good Chemistry for Tomorrow**, we will deliver **KAITEKI** solutions with infinite potential and expansion.

The Mitsubishi Chemical Holdings Group expresses its belief through the word **KAITEKI**, which is a word that originates from Japanese.

KAITEKI signifies a sustainable condition that is comfortable for people, society and the Earth, transcending time and generations.
